

Operational market risk consultant

Position

As an AXCO consultant, you will actively participate and manage high value added projects with several clients ; you will also be updated and involved in the internal life of CMG Consulting Group working closely with our consultants in Paris.

More specifically, you will be in charge of a portfolio of financial products (stocks, equity derivatives, exotic products) for which you will have to explain P&L statements on a daily basis and produce weekly market risk metrics.

Qualifications and job description

You are a business or engineering school graduate or you hold an equivalent postgraduate diploma, you are specialized in market finance, or you have acquired a first experience in this field.

You are familiar with concepts of valuation and risk analysis on vanilla and / or exotic financial products (P&L analysis, Greeks, mathematical models ...) with a previous experience with traders & market risk managers.

Regulatory Reporting Consultant

Position

You support our clients in regulatory assignments such as:

Participating in projects related to banking regulatory changes (IFRS 9, IFRS 15, and IFRS 16)

Participating in the formalisation of accounting and regulatory procedures (appendices, internal control, justification to CACs, ...)

Participating in consolidation work under French Gaap and IFRS standards

Contributing to carry out regulatory and prudential reporting (statements SURFI, FINREP, COREP, Anacredit, Leverage Ratios, Liquidity (NSFR, LCR) reportings, etc.) for the supervisory authorities

You will work autonomously and independently on your assignments with the support of our “Regulatory” skills centre in Paris with which you will closely liaise providing your experience to the team members.

Qualifications and job description

You have an accounting degree (DSCG, DEC), you are a business school graduate or you hold a postgraduate diploma (accounting / audit) and you have a 2 to 10 years' experience acquired with one of the Big Four, in a firm or in a consulting group.

You are technically and methodologically knowledgeable and you are keen on learning and challenging yourself. You wish to invest in long-term assignments at the heart of our firm.

Your financial culture as well as your organization and curiosity will allow you to progress with us.

Your strength points for this position: ability to listen and understand, analytical skills, verbal and written communication skills, negotiating skills and sense of customer service.

Bank Accounting Consultant

Position

You contribute to the preparation of financial statements, in particular in line with French GAAP and IFRS standards on behalf of our clients:

- Production and control of group reporting

- Assistance / advice on production and control of annual accounts
- Assistance / advice on production of consolidated accounts (PCG, IFRS, Us Gaap ...)
- Check, validate and regularize accounting schemes if necessary
- Participation in IT projects
- An experienced professional, you master:
 - The banking chart of accounts
 - The activities of a retail banking and / or financing and investment banking (capital market)
 - Regulatory issues
 - Accounting schemes

You will work autonomously and independently on your assignments with the support of our “Financial Management” skills centre with which you will closely liaise providing your experience to the team members.

Qualifications and job description

You have an accounting degree (DSCG, DEC), you are a business school graduate or you hold a postgraduate diploma (accounting / audit) and you have a 3 to 10 years' experience acquired with one of the Big Four, in a firm or in a consulting group.

You are technically and methodologically knowledgeable and you are keen on learning and challenging yourself. You wish to invest in long-term assignments at the heart of our firm.

Your financial culture as well as your organization and curiosity will allow you to progress with us.

Your strength points for this position: ability to listen and understand, analytical skills, verbal and written communication skills, negotiating skills and sense of customer service.

It is essential to be able to work in an English-speaking environment.
